

ANANYA IYER

Email: ananya.iyer@aimail.in | Phone: +91 98450 11223 | Location: Bengaluru, India

Current Role: Senior Machine Learning Engineer

SUMMARY

Results-driven Senior Machine Learning Engineer with 5.0 years of experience architecting predictive models, NLP pipelines, and scalable MLOps microservices using Python, SQL, Pandas, NumPy, Scikit-Learn, PyTorch, FastAPI, and Docker on AWS and Kubernetes.

WORK EXPERIENCE

Senior Machine Learning Engineer | FinSight AI Labs | Jan 2022 - Present

- Built predictive models using Scikit-Learn and PyTorch for real-time credit risk scoring and fraud detection serving 15M+ users.
- Engineered high-throughput data transformation pipelines in Python, SQL, Pandas, and PostgreSQL, reducing feature latency by 48%.
- Deployed containerized inference microservices using FastAPI, Docker, and Kubernetes on AWS with automated MLflow MLOps monitoring.

Machine Learning Engineer | DataScale Systems | Jun 2020 - Dec 2021

- Developed customer churn classification models and A/B testing experimentation frameworks using Python, Scikit-Learn, XGBoost, and SQL.

EDUCATION

B.Tech in Computer Science and Engineering | NIT Trichy | 2020 | CGPA: 8.9/10

SKILLS

Python, SQL, PostgreSQL, Machine Learning, Deep Learning, Pandas, NumPy, Scikit-Learn, PyTorch, Docker, Kubernetes, FastAPI, REST APIs, NLP, spaCy, MLOps, AWS, A/B Testing, Git

CERTIFICATIONS

- AWS Certified Machine Learning - Specialty

PROJECTS

- Real-Time Fraud Detection Engine: Built ensemble models with Scikit-Learn and XGBoost served via FastAPI and Docker containers.
