Email: sneha.reddy@clouddev.in | Phone: +91 96112 55443 | Location: Chennai, India

Current Role: Senior Data & Backend Engineer

SUMMARY

Senior Data & Python Backend Engineer with 5 years of experience building scalable data pipelines, FastAPI microservices, and cloud infrastructure using Python, SQL, Pandas, Apache Spark, Docker, Kubernetes, and AWS.

WORK EXPERIENCE

Senior Data & Backend Engineer | StreamLine Data | Jan 2022 - Present

- Designed high-throughput RESTful microservices using Python, FastAPI, PostgreSQL, and Docker deployed on AWS ECS and Kubernetes.
- Built distributed ETL data processing pipelines using Python, Pandas, SQL, Apache Spark, and Airflow.
- Collaborated with data science teams to host Scikit-Learn predictive models in FastAPI containers.

Software Engineer | CloudNova Systems | Jul 2019 - Dec 2021

- Developed backend APIs using Python, FastAPI, Flask, Redis, and PostgreSQL with CI/CD automation.

EDUCATION

B.E. in Computer Science and Engineering | College of Engineering, Guindy (Anna University), Chennai | 2019 | CGPA: 8.8/10

SKILLS

Python, SQL, PostgreSQL, Redis, Pandas, Scikit-Learn, FastAPI, Flask, REST APIs, Docker, Kubernetes, AWS, Apache Spark, Airflow, ETL Pipelines, CI/CD, Linux, Git

CERTIFICATIONS

- AWS Certified Developer - Associate

PROJECTS

- High-Throughput Feature Store API: Built low-latency feature serving service with FastAPI, PostgreSQL, Redis, and Docker.
